

Verola electrical float switch Data sheet

Description:-

*A small and Compact Level Regulator widely used for Filling and Emptying of Tanks and also on submersible water pumps which will automatically start and stop on electrical device

Technical Features:-

- * **Cable Type** : flexible pvc Cable /H05RN-F /3x.75 mm
- * **Cable length** : 2, 3,5,10 metres
- * **Max.working Temperature**: -0°C ÷50°C
- * **Storage Temperature** : -0°C ÷60°C
- * **Switch angle**: +- 45
- * **Housing Material** :100% PP
- * **Dimension**: 85×158×45
- * **Buoyant Capacity**: 330 ml
- * **Pressure Resistance** :1 bar
- * **protection grade** : IPX8
